**CNM Brewing Laboratory Site Tour in September:
Support and Explore this Burgeoning NM Industry**

The members and guests of the Facility Manager Association of New Mexico love an on-site tour of any new facility. Join us at 4pm on Wednesday, September 21st, 2022 for a guided tour of the most up-to-the-minute brewing laboratory where training is provided for Central New Mexico Community College students who endeavor to enter this vibrant and emergent industry as brew masters or technical support personnel.

Victoria Sanchez-Martinez is CNM's Associate Dean of the Culinary, Beverage, and Hospitality Arts department. She will guide attendees on the tour, accompanied by CNM's Marvin Martinez, Physical Plant Executive Director. Because there are rooms where construction is still underway, **PLEASE BRING YOUR OWN HARDHAT** to access these areas.

Gather promptly at 4pm on the north side of the building located 723 University NE 87106 in Albuquerque, NM where we will meet our guides and enter the world of microbrewing. Want more networking? Plan to gather with us at Two Fools Tavern on Central Avenue in Albuquerque post-event for more interaction. Cost is \$30.00 for FMANM members and non-members pay \$35.00. **Register online at FMANM.com where you can also access the link to print a CNM campus parking pass.**

Parking and entering the building:

- Request an E-Permit. Once approved, the E-Permit will be sent to you by email. Print and display on your vehicles dashboard.
- The Robert P. Matteucci (RPM) Building on CNM Main Campus, 723 University Blvd. SE, south of Coal Ave. and west of University Blvd.
- Please note that the construction is no longer an issue and folks can park on the north side of the building and enter through the front.

HELP!

With already over 80 golfers signed in for the Facility Manager Association of New Mexico Golf Tournament and Scholarship Fundraiser, please email me today. Let me know you will be on hand bright and early (7 am) on Friday morning, October 7th, at the Isleta Eagle Golf Course to help me register players, log door prizes, and perform other easy duties so that this event will sail smoothly through. Even if you do not play, your help is appreciated and necessary.

I still need door prize donations that make the event special. You and your company will receive notice in the newsletter and online for your generosity. If you have something to throw into the mix—golf-related sporting equipment, dinners for two, small tools, gift certificates, company logo-ed promotional products, etc.—please bring them with you to the golf course on the 7th (plastered with your business cards), or call me and I will arrange pick up.

The Facility Manager Association of New Mexico needs its supporters to be generous and help make this event one for the record books. If you have not signed up to participate, it is not too late. Email me at carolee@fmanm.com (preferred) or call me at 505-377-5309 and let me know you are supporting us again this year!

Reggie's Rant

Well, the kids are back in school going strong by now. We must all be aware of more children on the street. Please drive safely. Recently, I saw someone run a red light at least 20 mph over the limit while a bunch of runners (high schoolers) were ready to step off the curb. That could have been a disaster, those are things people must live with the rest of their lives if they make a mistake. With that said, the good news the weather has broken, and we are starting our NM fall which is spectacular. Not Spooktacular, that's next month. All of us in the service and construction field are glad that long heat wave is over and the monsoon season produced above average results. However, our hearts are still with the folks in the burn areas who have now seen floods.

Depending on when this is published you have already missed or already had a heck of a time at our annual golf outing. Keep any eye out for all the Facility Managers Association informative and fun monthly events. We try to offer interesting topics that the Facility Managers are interested in. We are

always open to ideas and suggestions. Contact Carolee and she will take it all under advisement.

The world has changed but it seems to be going back to normal. A lot of people quit their jobs, some got new ones and still found themselves unfulfilled. People are coming back to the workforce. It seems for a recession the roads are full, the grocery stores are full, the restaurants are full and sporting events are full. The woke culture seems to have been slowed dramatically. Prices have stopped rising, it seems, and the pandemic though fast spreading isn't really changing lives much. Maybe a blip? We'll see. The main thing is to teach, support and love your kids so they can lead us into the future. There's only a couple of ways out of this, work and protect our families. Oh yes get registered, get your adult kids registered now and vote in November. Your vote really matters.
